

EXCEL 120

Compact Reach Mower

The Excel 120 is suitable to fit onto the three point linkage (Cat 1) of compact tractors of 15hp and above 550kg, and will cut brush and small trees up to 25mm diameter. The unique swing-over feature allows cutting in all positions on both sides of the tractor for maximum performance and output.

Safety breakaway operates on either side of the tractor and activates when an obstruction is encountered.

Standard features include:

- 1.2m Cutter Bar (1.5m option)
- Ability to cut either side of machine
- Lower power requirements
- Three-point linkage –mounting
- Operator friendly
- Cable controls
- Front mount option
- Eliminates white finger

Optional extras

- 1.5m cutter bar
- Front mounting kit
- Proportional controls
